

PRESS RELEASE

New franchise is MUSIC to Focus EDL

- MUSIC Semiconductors is well known for devices designed to improve network performance

Focus EDL, the leading electronic components distributor specializing in providing the communications, high-performance datacoms and professional electronics industries with a broad range of products from the United States, Asia and Europe, announces that it has been appointed by MUSIC Semiconductors. The agreement, which covers the UK and Ireland, has immediate effect.

Established more than 15 years ago, MUSIC Semiconductors is recognized as a technology leading developer of devices that improve the performance of both internet and wireless networks.

“The MUSIC Semiconductors franchise adds yet another capability to our communications and datacoms product offering.” Says Geoff Philpot, Focus EDL’s Managing Director. “MUSIC is best known for its content addressable memory (CAM) product family which speed networks by accelerating packet transmission. The CAMs achieve this by making a direct packet address match rather than searching for destination information. We are looking forward to working with our customers to help them develop their next generation networking products.” Philpot adds.

For MUSIC Semiconductors, Richard Wigglesworth said: “We are very pleased to add Focus EDL as our UK franchise partner. The Focus EDL team is dedicated to provide superior service and their extensive knowledge and design expertise in the comms and datacoms space has allowed the company to achieved regular success and sustained sales growth. I am looking forward to a long and beneficial relationship”
